Brand: Laffort

Shipping time: 24h - available

Przeznaczenie: Wina białe

Przeznaczenie: Wina czerwone

Przeznaczenie: Wina różowe

Price

275,08 PLN

Description

POWERLEES® LIFE

Formula based on 100% yeast derivatives, suitable for wine production organic.

POWERLEES® LIFE is particularly rich in reducing compounds, including reduced glutathione (antioxidant). Research and development work on exploring alternatives to sulphates during ageing allowed us to select this inactivated yeasts for their ability to slow down the consumption of oxygen in wines. Used once or several times during ageing, POWERLEES® LIFE protects wines from premature oxidation, refreshes already oxidised wines and increases the ageing potential. Very high protection potential, especially in the context of the production of wines without the addition of sulphates.
