TANIN GALALCOOL 1kg tanina

Brand: Laffort

Shipping time: 24h - available

Price

190,34 PLN

Description

TANIN GALALCOOL®

TANIN GALALCOOL® is a highly purified extract of gallic tannins, with physiochemical properties that are particularly well adapted to white and rosé must vinification.

- Reduces natural enzymatic oxidation activity (laccase or tyrosinase), complementing the activity of SO₂.
- Favours the precipitation of unstable proteins in complement of bentonite use.
- Regulates and minimizes the addition of SO₂ due to its excellent anti-oxidant activity.
- Improves clarification.
