Filter plates 25pcs

Eaton BECOPAD 550 200x200

Depth filter sheets: Very coarse (8,0 - 10,0 um)

Eaton's premium BECOPAD depth filter sheets are made of cellulose, characterised by high purity, strength and performance for excellent colour and flavour fidelity, which does not even require minerals to remove microorganisms. BECOPAD depth filter sheets offer exceptionally high chemical resistance in both alkaline and acidic applications.

The special advantages of the standard range of BECOPAD depth filter sheets:

- Without mineral additives, therefore with low ionic content
- Up to 20% higher performance due to maximum backwash capability
- Very good chemical and mechanical resistance
- Low load adsorption
- Water required for pre-rinse and regeneration reduced by up to 50%.
- Reduction in drip losses of up to 99%.
- Virtually no ash content
- Biodegradable
